

ANARCHISTS ARE BELIEVED GUILTY BOMB EXPLOSION

FEDERAL OFFICIALS AND DETECTIVES ARE IN N. Y. TO UN-EARTH GUILTY ONES

ATTORNEY GENERAL PALMER TAKES PERSONAL CHARGE OF INVESTIGATIONS

(United Press)
New York, Sept. 18.—New bomb outrages were feared today following discovery of pamphlets indicating the "anarchist fighters," who mailed scores of bombs to prominent citizens in May, 1919, were responsible for the Wall street explosion Thursday.

Every resource of the federal government detective system which resulted in the downfall of many German plots and capture of spies during the war, was thrown into the hunt for plotters today.

The investigation in New York was under the personal charge of Attorney General Palmer, who arrived last night accompanied by Francis P. Garvin, assistant attorney general and alien property custodian. They went into conference with Wm. J. Flynn, chief of the justice department operatives.

Palmer's trip to New York followed discovery of anarchist pamphlets in a mailbox near the scene of the explosion. These pamphlets were believed to have been placed in the mailbox yesterday morning. They said: "Remember, we will not tolerate any longer. Free political prisoners or it will be sure death for all of you.—Signed, American Anarchist Fighters."

These words were printed in rubber type and many misspelled. In May, 1919, when bombs were sent through the mails to many prominent citizens they were accompanied by similar warnings. None of the "anarchist fighters" were captured.

The circulars found yesterday were addressed to many prominent men. There were many theories to-day that the anarchists were not really responsible but merely hastened to claim the explosion as their handiwork. But these were discredited when it was learned some of these pamphlets were put in circulation even before the explosion.

While federal officials were attempting to round up the anarchist fighters, police centered their efforts on running down the man who owned the horse and wagon used to haul the bombs. It was reported the blacksmith who shod the horse just before the explosion had been located and was aiding the police.

The New York grand jury will resume investigation of the explosion Monday. According to information from the district attorney's office, the jury would like to question Edward Fischer, who warned friends of the accident to occur in Wall street, and who is held at Hamilton, Ontario.

Explosion Suspect Held in Jail
Hamilton, Ont., Sept. 18.—Edward P. Fischer, of New York, who wrote several letters warning friends of Thursday's bomb explosion in Wall street, was held in jail today pending deportation to the United States or commitment to an insane asylum.

Despite efforts of his brother-in-law, Robert Pope, it was believed American authorities here will succeed in having Fischer returned to New York.

Reds Planned Explosion
London, Sept. 18.—Reds undoubtedly planned the New York explosion, the Daily Mail said in an editorial today.

MEXICO WILL MAKE SATISFACTORY OIL AGREEMENT WITH U. S.

BY RALPH H. TURNER.

(United Press Staff Correspondent.)
Mexico City, Sept. 18.—Renewed assurances that the new Mexican regime will co-operate with Americans in the oil fields have been given James E. Phelan of the United States shipping board, in a conference with De La Huerta.

Phelan said Huerta assured him that he and President-Elect Obregon were in complete agreement and that a binding and satisfactory agreement could be made with regard to the foreign oil production.

AMERICA FIRST, HARDING'S THEME

IN A SPEECH TO A DELEGATION OF FOREIGN BORN AMERICAN CITIZENS

RAYMOND CLAPPER, (United Press Staff Correspondent.)
Marion, Sept. 18.—America first, was the keynote of a speech delivered today by Senator Warren G. Harding, republican presidential nominee, to a front porch delegation composed of American citizens of foreign birth.

"Let us pray that America shall not become divided into classes and become the menace of hypenated citizenship," he said.

Harding warned against meddling in European affairs, and asked: "How can we expect American unity, how can we escape strife if we in America attempt to meddle in the affairs of Europe, Asia and Africa if we assume to settle boundaries and attempt to end the rivalry and jealousy of centuries of old world strife?"

The detailed itinerary of Harding's southeastern trip was announced today. The party, including Mrs. Harding, will leave Marion Sunday, Sept. 26, for Baltimore.

FIRE THREATENS CITY OF TAMPICO

LIGHTNING STRIKES OIL TANK SETTING IT AFIRE AND FLAMES SPREAD

(United Press)
Tampico, Mexico, Sept. 18.—Fire originating from lightning striking an oil tank of the Aguila company last night, has spread over a considerable area and was threatening destruction of a large portion of the city.

The blaze was quickly communicated to five other tanks and in a few hours had destroyed forty buildings, two river boats and a number of freight cars. The damage was estimated at more than \$1,000,000.

LET MEN DO THE HOUSEWORK, IS CHICAGO SLOGAN

LACK OF DOMESTIC HELP MAKES IT NECESSARY FOR EMPLOYMENT AGENTS TO QUIT BUSINESS

(United Press)
Chicago, Sept. 18.—"Let the men do the housework," is rapidly becoming the slogan of Chicago women, according to information obtained from employment agencies here today by the United Press.

As the supply of women for these jobs is not sufficient to meet the demand many business men are being pressed into service during the time at home, cleaning, preparing meals and other housework.

John Cavanaugh, former proprietor of an employment agency, dealing in girl service, declared his case was typical of many Chicago men. He was unable to continue in business because there were no girls for the position, said Cavanaugh, "so I closed up and got a job for \$20 a week. My wife had obtained a position in a tea room where she got two times that amount so I quit and she went to work."

Cavanaugh said he prepared meals, cleaned house and took care of the children.

Mrs. Laura Walters said women in Chicago and other sections of Illinois who had employment bureaus, said men were hired for housework wherever available. "We have five times as many requests for girls as we can fill. Many young men, especially Filipinos and Japs, are being hired for 'maids,'" she said.

POLISH TROOPS ADVANCE AGAINST SOVIET FORCES

(By United Press)

Warsaw, Sept. 18.—Polish troops continue to advance against the Russian forces northeast of Kovel the Polish communique announced today.

"Northeast of Kovel we occupy Kamieny and Kasperski taking one thousand prisoners," the communique said.

ST. PAUL EMPLOYEES JAILED FOR GRAFTING

OFFICIAL COUNT WILL BE REQUIRED

TO DETERMINE THE NOMINEES FOR GOVERNOR AND SENATOR IN ILLINOIS

(By United Press)

Chicago, Sept. 18.—John G. Oglesby, anti-Thompson candidate for the republican nomination for governor, led Len Small by about three thousand today in nearly complete unofficial returns from Wednesday's big primaries.

Returns today were from all except one hundred state precincts, where Oglesby was credited with strength, and two hundred and fifty in Chicago where Small had the advantage.

The official count which probably will be made next week, will be necessary to determine the republican senatorial nominee and the republican candidate for governor.

MILLERAND DECLINES FRENCH PRESIDENCY

(By United Press)

Paris, Sept. 18.—Senator Chas. Jonart and Paul Peret were regarded today as leading possibilities for the French presidency to succeed Paul Deschanel.

Premier Millerand was the general favorite for the office and it was conceded he would be the choice if he will accept it. Thus far he has declined.

FOOD DECLINED 12 PER CENT IN MONTH OF AUGUST

ACCORDING TO REPORT MADE PUBLIC BY BUREAU OF LABOR

(United Press)

Washington, Sept. 18.—Food prices declined more than twelve per cent wholesale during August, according to a report made public today by the bureau of labor statistics.

This was the most notable decline shown in the tabulation of general wholesale price changes which averaged a reduction of four and one-half per cent, according to the report.

Farm productions are listed as having declined six per cent. Cloth has declined five and three-fourths per cent while smaller decreases were recorded for chemicals, drugs and miscellaneous commodities.

Increases were shown in fuel and lighting materials. They were up six and one-fourth per cent. House furnishing goods were also increased.

Wholesale prices for the last month were higher than a year ago at the same time. Reports on retail prices will be made next week.

HEARING ON RATE INCREASE BEGINS OCT. 4

(By United Press)

Washington, Sept. 18.—Hearing of evidence in the controversy between the Interstate Commerce Commission and Minnesota railroad commission over rate increases, will be started in St. Paul Oct. 4, it was announced today.

The Minnesota state railroad commission refused to grant railroad rates to conform with the increase granted by the state commerce commission.

St. Paul, Sept. 18.—Minnesota railroads in going before the interstate commerce commission here October 4, will fight for a passenger rate of 3.6 cents per mile intrastate.

The Minnesota railroad and warehouse commission declining to increase passenger rates recently, asserted it had no authority to grant fares in excess of the two cent maximum fare law. The commission announced the two cent fare law would become operative intrastate on Sept. 1.

Railroads appealed for an injunction to federal courts and on Aug. 30 a temporary restraining order was granted. The state has just filed its answer to this order. The railroads seek now to increase passenger fares .6 of a cent to conform to rates recently granted by the interstate commerce commission intrastate. Meantime the roads will continue in effect under the three cents authorized under the transportation act.

COX SPEAKS IN SAN FRANCISCO

OUTLINES DEFINITE PROGRAM TO REDUCE THE COST OF LIVING

HERBERT WALKER

(United Press Staff Correspondent.)

San Francisco, Sept. 18.—Governor James M. Cox, after charging in a speech here that the republican senatorial oligarchy supported the most shameless profiteers in history, outlined five "practical, concrete, definite" measures which he said will reduce the cost of living and eliminate the profiteers.

They were:
"Congress should grant the president a permanent revolving fund to purchase as much of the sugar crop as is necessary to prevent profiteering."

"A law limiting the period during which goods may be kept in cold storage."

"A law requiring that the place in which the goods were placed in storage be marked upon them."

"A statute requiring all goods destined for interstate commerce be marked the price at which it left the hands of producers."

"A law licensing and regulating the engagement in interstate commerce as to preventing unconscionable profits."

Cox, charging that the republicans are being backed by the profiteers, said that it must be more than a coincidence. He said that the profiteers who were protected by the senatorial oligarchy in the last congress are paying their share in the republican campaign fund, which he charged will not be less than \$15,000,000.

TWO MEN HELD FOR ASSAULTING TWO YOUNG GIRLS

(United Press)

Minneapolis, Sept. 18.—Two men were being brought here today following attempted assaults upon three young girls. One of three men narrowly escaped lynching at the hands of a mob of three hundred men.

Hein Anderson, age 26, and Hannah Laerfold, 17, were walking home when a man, who gave his name as Elmer Whippis, accosted them. He caught the youngest girl, but let her go when her companion escaped screaming.

Anton Nelson, pursuing a moving van, heard his seven year old daughter scream and found George Nelson, the driver, annoying the child. The van driver was being held by police.

VETERANS OF FOREIGN WARS CALL ON PRESIDENT WILSON

(United Press)

Washington, Sept. 18.—Delegations from the Veterans of Foreign Wars which are holding an encampment here, called on President Wilson today to extend greetings of the organization.

Captain Richards stated the president told the veterans he regretted his inability to attend the sessions of the encampment, but was prevented by the condition of one of his legs. Richards said the president remained seated throughout the interview of about five minutes.

HUGHES ATTACKS LEAGUE OF NATIONS ESPECIALLY ART. 10

IN A SPEECH AT TRENTON HE CHARACTERIZES ART. 10 AS MISCHIEF MAKER

(United Press)

Trenton, N. J., Sept. 18.—In a speech vigorously attacking the league of nations covenant particularly Article X, Chas. Evans Hughes, former supreme court justice and candidate for the presidency in 1916, today signalized his entrance into the campaign for Senator Warren G. Harding and Governor Calvin Coolidge.

"Article X is a mischief maker," Hughes said in his address to the New Jersey republican state convention.

"It belongs to the category of alliances to make war and is opposed to American principles. It will serve to make disputes and not to heal them. Article X is merely the voice of the covenant."

Judge Hughes contended this article imposes an obligation upon the signatories of the treaty.

"The obligation is immediate," he declared. "It awaits no action of the league to impose it. It is not subject to call. Obligations are moral."

Combating arguments that under the constitution congress noly can declare war, Hughes said:

"If the treaty were made without reservations the nation would be bound to all other contracting powers to use proper organs of the government to accomplish whatever is necessary to make good the engagement."

He contended the president might under Article X plunge the country into war without waiting for congress, but "it has been urged that the league council might not advise the use of military force. There is no security for this, for plainly the council might so advise, and forces might be finally needed if a guarantee were to be made by us."

He characterized provisions regarding the Monroe Doctrine as both inaccurate and ambiguous.

HEROISM OF FIREMAN PREVENTS LOSS OF LIFE

(United Press)

Cleveland, Ohio, Sept. 18.—Even as the little Hollander saved his town from destruction with plugging up the hole in the dyke with his finger, so did Fireman Martin Booth prevent the probable loss of life and destruction of much property here when he plugged up a hole in a gas pipe with his finger until his fellow workers found his blinded and fainting after forty-five minutes.

When the company responded to the fire alarm they found a large store building burning. There were living apartments above the store. A wholesale explosion of gas shook the structure until Booth placed his finger in the hole in the pipe and stopped the flow of gas.

COMMISSION EXTENDS PRIORITY ORDER FOR CARS FOR COAL

(United Press)

Washington, Sept. 18.—Coal mines will continue to have first call on empty coal cars to insure a supply of winter fuel under an order of the interstate commerce commission, which went into effect today. The order extended for an indefinite period the life of the commission's recent priority report which was to have become void today. Extension of the priority order was made necessary by the strike of anthracite coal miners which reduced the output of that fuel and limited the supply of bituminous coal. The anthracite coal production fell to nearly five hundred thousand tons last week as a result of the strike, it was estimated.

Proved Himself Hard to Kill.
There are many cases on record of professional fasters doing without food for 40 days. Some few years ago a French soldier, Corporal Desrats, fell into an old mine-shaft near Brest. He lay there, unable to get out, for 28 days, and that without a morsel of food or drink. Yet at the end of that time he was able to call for assistance, and when got out, could tell his story. With proper care he completely recovered.

Arctic Cold Misunderstood.
There is a great deal of misunderstanding relative to the cold of the Arctic regions. The absence or presence of water and altitude are important factors in determining temperature. As the altitude increases going North, the bite of the weather is lessened so that there is little or no inconvenience to be experienced from the cold.

Mummies Should Be Confined.

That there are animals that live without drinking is shown by the gazelles on the island of Saad-ud-Din, off the coast of Somaliland, where there is no fresh water at all, and where the annual rainfall is less than two and three-quarter inches.

**THE
PIPELESS
CALORIC
FURNACE**
The Original Patented Pipeless Furnace

The Caloric Pipeless Furnace is guaranteed to heat your entire home with only one register. More than 50,000 Calories are now in use, and during the coldest days of last winter kept homes warmer with less fuel than the old style heating systems they displaced.

We do not ask you to experiment with this furnace. We KNOW what it will do. If we recommend it for your home after studying your floor plans, it is installed with an absolute guarantee of perfect heat in all rooms. If it does not do exactly as we claim for it after a fair trial, we will take it out at no expense to you.

Do not confuse the Caloric with the ordinary furnace. It is not an old-style furnace with the pipes left off, but an entirely new method of heating. It heats the air—sends the pure, fresh warmth through the house, draws the colder air back into the furnace to be purified and heated and again started on its trip through every room.

35% Fuel Saving

Because of its one register, the Caloric accomplishes better heating results with less fuel. Some owners claim fifty to seventy-five per cent saving. We know that it will save thirty-five per cent over any other method.

Demonstration At Lively's Garage
Starting Sept. 21

We shall have a special demonstration of the Caloric at this store. Come in and talk to us. We will carefully go over your heating requirements, and if we recommend the Caloric, we will give you an absolute guarantee of satisfactory performance in your own home. This written guarantee is backed by us and the manufacturers.
Come in and talk to us. Learn what this furnace will do toward keeping your home warm and saving you money on your fuel bill.

THE PRESENT LABOR ISSUE

There was a time, not long ago, when the chief labor issue in this country was the recognition of labor unions. Few people now question that right. The big issue today is one that has grown out of the almost universal acceptance of collective bargaining by employers. It is the question whether organized labor, when it has entered into a bargain, may be depended upon to keep it.

That question has been raised again and again in the present year, as one union after another, acting officially or unofficially, has disregarded its pledged word and made a solemn contract a scrap of paper.

In most of these cases, it is only fair to say, the officials of the unions concerned have attempted to carry out their agreements. It has been the rank and file of the workers, sometimes a majority of the union and sometimes a minority, led by rebellious subordinate leaders, that have gone on strike or on "vacation" in disregard of their contracts. The officials seem to have done their best, ordinarily, to hold their men in line, though in some instances they have been accused of conniving at the breaches of faith.

But in practice this does not make a great deal of difference, so far as the status of organized labor is concerned. Whether it breaks its contracts in defiance of its officers or aided and abetted by its officers, the effect is pretty nearly the same. Organized labor is discredited and distrusted, because it fails in the main thing for which it professes to be organized.

There can be no collective bargaining if the bargains are not kept. Private individuals are expected to keep contracts. So are employers. If employees will not keep theirs, there is going to be a tremendous reversal of the recent attitude toward labor; organized capital is going to refuse to enter into contracts with labor groups and insist on a return to the old plan of individual employment, with the open shop and all the lack of safeguards to labor that were connected with that plan.

Is that what labor wants? The question needs no answer. But it is what labor will get, if such "outlaw strikes" as that of the anthracite coal miners are tolerated. It is up to organized labor itself, in all its branches to protect its reputation and its hard-won rights by using its utmost influence to make such rebels respect their own contracts, and thus respect the rights of the employers and public.

A CONSTITUTIONAL LEAGUE

The Constitutional League of America has applied for a charter in New York state. The object of the league is "to place a copy of the Constitution of the United States in every one of the 20,000,000 homes of America, and to disseminate a wider knowledge of the Constitution, the principles under which it was founded and the ideals which inspired it." The organization is nonpartisan, and among its directors are Franklin K. Lane and Charles E. Hughes.

This is timely action in the right direction. Never, since the great document was drafted, has there been a time when it was so much under discussion, and when the people who live under it needed to understand its origin, purpose and application. We are assuming new duties and obligations in our own country as a result of the war. Our relations with other countries have assumed new importance. The meaning and scope of the Constitution are subject to dispute and confusion. If the people are to think clearly and vote wisely on fundamental matters they must be familiar with the fundamental law of the land. The attaining of such information should not be a wearisome matter, for the story of the founding of our government and its development through the years is fascinating and interesting when properly presented.

SUFFRAGE CLINCHED

The Connecticut assembly, acting on suffrage ratification, gave 216 affirmative votes and only 11 negative. In the senate there was not a vote in opposition. And Connecticut was only lately considered hostile to woman suffrage.

Nothing succeeds like success. The suffrage movement has become a landslide. Most of the remaining states may be expected to ratify within a year.

So much for the general progress of democracy and self-determination of sexes. Specifically the action of the Connecticut legislature clinches the ratification of the nineteenth amendment beyond peradventure. Even if Tennessee is counted out through some legal technicality, there will be a perfect 36. Accordingly, all officials and political leaders who have been preparing to induct women into their full political rights on Nov. 2 are going ahead without fear, and all the new voters feel a sense of relief and satisfaction.

GET A RECEIPT

Hereafter when you travel on railroads within the state of Minnesota, get a receipt when you buy your ticket. It may save you money, for if the Minnesota two-cent fare law is upheld by the courts the railroads will have to refund you one cent a mile for every mile you travel after Sept. 1, if you have a receipt for fare paid. But, if you fail to get a receipt you'll have a hard time collecting anything. The Minnesota two-cent law has been temporarily enjoined, but Attorney General Hilton succeeded in having inserted in the restraining order a clause under which a passenger purchasing a ticket for transportation on the railroads of Minnesota must be given a receipt if he requests it.

Law's a queer thing. In order to protect Pomzi's creditors, the authorities tie up his money and refuse to let him pay his creditors.

Now that the expressmen have been given \$20,000,000 more pay, they won't have to collect at both ends any more.

Babe Ruth Showing Young America How He Hits 'Em Out of the Lot

Babe Ruth, in the baseball world, is what Man o' War is on the turf—they are both three-year-olds and still going strong. With all his success, Babe hasn't lost the qualities that made him a great ball player. He is seen here showing an eager bunch of youngsters just how to become a Homerun King.

Making Glass of Rice Husks.

Experiments have been carried out in Burma with the idea of utilizing the silica content of paddy, rice husks, in the manufacture of glass. On burning the husks about 18 per cent of white ash is obtained, and, although this ash contains small quantities of iron, it has been proved to be suitable for the manufacture of glass having a pale green or yellow color. In burning the husks sufficient heat is generated to carry out the various processes.

Gave Him Idea for Balloon.

The invention of the ordinary balloon is said to have had an exceedingly simple origin, though some authorities give more than one instance of this discovery. A linen shirt was hanging in front of a fire, and Stephen Montgolfier, who is said to have invented the balloon, noticed that as the warm air rose it took the shirt with it. Quite a simple incident, which led to a remarkable invention. — Seattle Times.

Dread Suspense.

"Oh, doctor, tell me, quick!" begged the fair patient, clasping her hands and convulsively nibbling a thousand dollar check. "How sick am I? Is it California, Florida or Europe?"

"Isle of Artists."

An island in Lake Como is to be known as the "Isle of Artists." And thereby hangs a tale. The owner of the island, Sig. Caprini, was a great admirer of King Albert of Belgium, and in his will he left it to him with the wish that it might serve some noble purpose which Italy could share. King Albert, through his minister of arts and sciences, has handed over the property to the Italian government with the object of making the spot a restful retreat and center of activity for those who have devoted their lives to art. Under the Academy of Milan villas are to be built for artists and the place will be transformed into a little capital for promoting the fine and industrial arts in the Italian lakes district. — Chicago Daily News.

Why Ship Is Feminine.

A ship is invariably spoken of as of the feminine gender; this is traced to the ancient Greeks, who called all ships feminine names out of respect to Athene, goddess of the sea. Friday is believed to be an unlucky day by those who are superstitious. It is derived from the fact it was the day of Christ's crucifixion, as well as the one on which Adam and Eve ate the forbidden fruit. Few, perhaps, are aware, why a weather-cock is frequently attached to a church steeple. This is believed to remind people of Peter's denial of Christ. It is a common belief that peacock's feathers are unlucky. This is due to the tradition that the bird opened the gate of paradise to the serpent.

Ostrich Eggs Slow to Spoil.

Ostrich eggs keep a long time before spoiling, according to a report by M. H. Junelle to the French Acclimatization society. He tells of ostrich eggs sent to him from Telnar on August 22, 1919, which reached him at Marseilles on December 12 still perfectly good. M. Hermentier had eggs that he opened and into which he dipped as he needed them; this for several days.

La Nature suggests that if a regular supply of ostrich eggs in large enough quantities could be arranged for it would be a boon to the confectionery and baking trades as one ostrich egg contained considerably more than a quart of goodness.

WAITING FOR STREET LIGHT

Mrs. Martha A. Billings Bridges
Emergency by Using Lantern
Near Quince and Broadway

DARK FOR YEAR ON CORNER

People in That Section of City Wondering
What They are Paying
Their Taxes For

Something like a year has passed and the corner at Quince and Broadway still continues dark and a new street light globe, although placed in position, has emitted no light.

People in that section of the city, some 16 families, pay their taxes and are wondering what service they get in the way of a streetlight. It has been brought to the attention of the water and light board and others and explanations, many of them have been given, but no light is forthcoming.

Mrs. M. A. Billings has a little store at 707 South Broadway and to bridge the emergency she hangs a lantern out in the street. This serves as a feeble substitute and also illustrates well the progressive spirit of Mrs. Billings in thus loaning illumination to the city of Brainerd and her neighbors. On very dark nights, citizens also add their porch lights to illuminating the street.

LEG BROKEN

Henry J. Caron Met With Accident
While Working at the First
Baptist Church

Henry J. Caron is slowly recovering from a broken left leg and a bruised right leg, sustained in an accident while working as a carpenter for J. E. Jackson.

While excavating was being done, Caron was engaged in placing some timbers under a corner of a stone wall. A section of the wall gave way, one flying rock striking him on the left shoulder and knocking him down. Tons of rock buried his legs.

Mr. Caron said that all that saved his legs from being crushed to pulp was a lot of loose sand which preceded the flow of rock. Drs. Reimstad and Beise were summoned, administering first aid and further treatment.

Must Have Been to Movie Show.

A recent night in an eastern city two policemen saw a man swinging a woman back and forth from the fourth story window of a building while she kept up a continuous screaming. They rushed upstairs and into the room, saved the woman and arrested the man. But, they noticed that his eyes were closed. At police headquarters a doctor who examined him said the man was suffering from nightmare and was not aware of what he was doing. If he lived in that family it wouldn't be necessary to close the windows at night, they would be nailed down tight all the time.—Copper's Weekly.

HORSE SHOE TOURNAMENT

Held at Crow Wing County Fair at
Pequot, Much Interest Manifested
in the Sport

L. O. KELSVEN MANAGED SAME

List of Prize Winners—Similar One
to be Staged at the Cass County
Fair at Pine River

While it was evident to a close observer that the fair at Pequot, was in every sense of the word, a success, there were several features more outstanding than others. Among these was the Horse Shoe Pitchers Tournament. Almost from the beginning, there was more than usual interest in the contest and this interest was sustained through out the tournament. L. O. Kelsven had gone up on Tuesday to prepare the courts, have score cards etc. gotten ready, all of which conducted to the smoothness of the contest. The tournament which was in charge of Mr. Kelsven throughout, began on Thursday with twenty entrants with the following result:

P. P. Hanson, Pine River, first prize—\$8.00.

L. H. Dudgeon, Pequot, second prize—\$6.00.

O. P. Bakken, Pequot, third prize—\$4.00.

F. S. Wood, Pequot, fourth prize—\$2.00 (for the most ringers).

Friday there were again twenty entrants with the following result:

L. O. Kelsven, Brainerd, first prize.

W. Hoffman, Mildred, second prize.

R. F. Doherty, Pequot, third prize.

W. McDonald, Nisswa, fourth prize. (most ringers).

Brainerd contestants outside of Kelsven were O. J. Bouma, L. A. McCulloch and J. H. Warner. Mr. Bouma just failed to get into the finals by one point on Thursday. Mr. Warner tied for first place in his group but lost in the deciding game to Mr. Rasmussen of Pequot.

Efforts will be made later on to organize the Horse Shoe Pitchers Association of Crow Wing County. Too much cannot be said of the way in which Kelsven managed the contest and has been invited to take charge of the tournament to be staged at the Cass County Fair to be held at Pine River the latter part of this month.

Charges 50 Per Cent

Travelers are noticing the changes in passenger and other tariffs. Interstate passenger rates have been increased 20 per cent, interstate freight rates 35 per cent and Pullman charges 50 per cent.

The situation within Minnesota is different than in other states. A 3c fare obtained during the war and when it was expected to revert to 2c, the railways got an injunction, restraining the state from putting the 2c rate into effect. The interstate rate is 3.5c a mile.

For instance the old rate from Brainerd to Duluth, interstate because of passing through Superior, Wis., used to be \$3.62. It is now \$4.34.

The rate Brainerd to Moorhead, being within the state, unchanged and is quoted at \$4.11. Should one, how-

WHITNEY PHONES TO MAYOR

A. G. Whitney, president of the Brainerd Gas & Electric Co., telephoned Thursday afternoon to Mayor F. E. Little, that he wanted to know the status of the gas situation in Brainerd, and if the city did not figure on buying the plant.

Mr. Whitney also wishes to know the situation regarding the gas mains in city streets.

The gas company was given an ultimatum by the council to make gas or forfeit their franchise within 30 days from August 23, and less than a week remains for the gas company to get busy or lose its franchise.

Red and White Lights.

On dark nights a white light can be seen farther than any other, but on light nights red takes the first place.

ever, wish to go to Fargo, N. D., a mile from Moorhead, the interstate rate Brainerd to Fargo is \$5.46. That extra mile costs 95c.

The old rate Brainerd to Chicago was \$17.35. The new is \$20.82.

The old rate Brainerd to LaCrosse, Wis., was \$12.65 and the new is \$15.35.

Cutting the High Cost of Experience

"EXPERIENCE keeps a dear school," has often been verified by investors. To many it has meant the loss of their funds through speculative "stocks" or schemes.

BUT it is unnecessary; for the experienced investor as well as the amateur can invest wisely, safely, profitably—right here at home—Our Certificates of Deposit.

THEY are backed by every dollar of our resources. They are payable on demand—can be had for short or long terms and bear interest at 4 per cent.

THEY are an excellent investment for your fall funds. Interest starts the day they are issued.

J. E. VAN EPPS

One of the loveliest gems of opera sung by Besanzoni

"Voce di donna" (Angelic Voice), the grateful song of the blind mother in Gioconda, is considered by many music-lovers the finest single number in the opera.

It would be difficult to choose a number better adapted to the quality of Besanzoni's lower tones, and you realize here is one of the truly great voices of this generation.

Caruso sings

"L'Addio a Napoli" (Farewell to Naples)

A ringing, scintillating bolero as brilliant, perhaps, as anything in music. Phrase follows and answers phrase with ever-increasing strength and splendor. A masterpiece of Neapolitan song rendered in a manner worthy of this supreme artist.

AT THE NEW PARK THEATRE NEXT WEEK

Edna Goodrich in "Sleeping Partners," Mon., Sept. 20

"Sleeping Partners," with beautiful Edna Goodrich, herself, in the leading female role, will be the attraction at the New Park theatre Monday, Sept. 20.

The play is a comedy of the Paris boulevard, telling the story of the misadventure of a radiant Parisienne and her wayward husband, and relating how a sophisticated American saves both from the penalty of their folly. Edna Goodrich, as the French

wife, is dazzling, alluring and becomingly coy.

Miss Goodrich has been seen here in pictures and as leading woman and co-star with Nat C. Goodwin. In her present role she will wear what are promised to be some of the handsomest Lucille gowns ever seen on the American stage.

"Sleeping Partners" with Miss Goodrich will be seen here exactly as presented during its long and successful run at the Bijou theatre, New York.

FACING the FACTS

Food For Thought for the Calamity Howler, as Set Forth by Mrs. C. A. Brownell, of Ford Motor Co.

It is very peculiar, this human nature of ours, because 90 per cent of the men and women are very quick to see the clouds of trouble and to miss the bright sunshine of pleasure. Let a rumor emanate from an insane asylum that there is going to be a failure of the crops, and the multitudes commence to mourn right away. Seems as if people like to be in trouble.

And so it is that there has spread over this country an almost universal belief that we had to have a financial panic; we must have a commercial depression; we were due for a period of hard times; Hades was to pay and no pitch hot. Rumor upon rumor of a shortage in crops, shortage in labor; in fact, it seemed as if the whole world was going to be so dog gone short that it was liable to drop into a hole and disappear. The prophets of cheerfulness were like the proverbial hen's teeth—few and far between.

Now let us look at the facts, for never before in the history of civilization has mankind had a more rosy future to vision, and this applies to every part of the globe, as we could prove if we had the time and the space.

But let us just take America. Never in our history has there been so much money, real, honest-to-goodness cash, in the United States as there is today. This country has been growing in wealth by leaps and bounds, because we have the best educated people in the world; the most moral people; the most humane people; people with more initiative than obtains among any other peoples on Earth. Then we have a country whose unlimited natural resources represent wealth untold. We were coming to the mastery of the wealth of the world before the War. For instance, in 1913 this country produced \$14,000,000,000 more than it consumed. Then the War came on and our production was hurried until in 1917 we produced \$18,000,000,000 more than we consumed.

We loaned to the nations of Europe in excess of \$30,000,000,000. With the exception of some \$3,000,000,000, this money remained in America and was spent by the borrowers in our markets. It was not taken out of America—it is here still. Since the War closed hundreds of millions of gold have been sent into the United States by foreign countries in payments on their debts.

Then in 1919 our production was the largest in the history of the country. We produced more goods than we did in 1917, and we had an eager market for everything we produced, and all we sold brought the money to America—it's here.

Take the statement by John Fletcher, Vice President of the Fort Dearborn National Bank of Chicago: "The United States is far and away the richest country in the world. The aggregate deposits of its banks are billions more than the combined deposits of all the banks in the world outside of the United States. We have more actual cash than any other nation and in the last few years have obtained an almost unbelievable supremacy in trade."

Now with this vast accumulation of money, how can we have a financial panic; how can we have a commercial depression; how can we have hard times? Impossible!

There was naturally a reconstruction period which must follow after a world conflict. After our own Civil War of 1861-65 we were ten years passing through what was called the reconstruction period, during which our money went down to fifty cents on the dollar.

We are going through the present reconstruction period inside of three years and our money is at a premium the world over.

Talk about hard times; talk about depression—nonsense!

Let us tell you that there is one hundred years of intense prosperity right at the doors of the people of the United States. We won't have men and women enough to manufacture all that is necessary to meet the demand. We are producing more today than ever before in practically every line unless it be ship building and that will come back. We have millions of acres untilld. We have billions of lumber uncut. We have billions of gold, silver, copper and lead to be unearthed. Oil is being found in every State in the Union. All the resources of the country are coming to the surface, and we are going to be the busiest people that humanity has ever known, and likewise the richest.

The financial centers of the world today is in New York. The center of civilization has passed from the Old World to the New, and now rests with us. We are great. We don't want to boast, but we want to know our strength and our power. If any

band of bankers or politicians think they can hoodwink the American people, they have got a mighty sharp lesson coming very quick. The intelligence of the American people won't tolerate any speculative crisis. Honest business is to big in volume, too intense in value, for the American people to be sidetracked by the speculators and promoters.

Go to it—build and equip and prepare yourselves for a future rich in development, rich in production, rich in business and rich in profits.

Good wages, lots of work, the profiteer eliminated, cheerfulness, courage, optimism filling every nook and corner of America. Let there be no hesitancy—hang your banners on the outer walls and sound the trumpets of triumph—success is here.

The fiscal year of the Ford Motor Company ended July 31, 1920, and in that year they made 996,666 cars and 80,008 Fordson Tractors, besides having unfilled orders on file for more than 200,000 cars and many thousands of tractors, which means an increase over all past production by more than 20 per cent, and next year their plans are to make 1,250,000 Ford cars and 250,000 tractors. Do you suppose that this company is guessing? Not for a minute. Other industries are the same. Get a hustle on. Talk prosperity and act prosperity. Keep busy and you can't help but enjoy prosperity. Spend your money—it's no good idle. Do your share and make the next century a golden era in which all humanity will be lifted up to a higher plane of productivity, comfort, happiness.

Cork Lord Mayor Still Alive on 37th Day

(By United Press)

London, Sept. 18.—Terence MacSwiney passed a sleepless night and was in a state of complete exhaustion today, the thirty-seventh day of his hunger strike, the Sinn Fein bureau said. Mary MacSwiney, the lady mayor-elect, after her morning visit to Brixton prison, reported her husband looked worse than at any time since his hunger strike began. He was still conscious, she said, but very weak.

"Linger Longer Letty," Friday, Sept. 24th.

Charlotte Greenwood, the national comedienne, with strong personal characterizations, is drawing crowded houses in Oliver Morosco's smashing musical comedy hit, "Linger Longer Letty," which will be in Brainerd at the New Park theatre on Friday, Sept. 24.

Mr. Morosco has given us a beautiful and artistic production. Letty is a sort of Cinderella owing to the fact that the family can get no servant and Letty is a good cook while her many sisters are not up on house

work. It may be imagined how Miss Greenwood with her delicious line of comedy, her ungainly walk and her peculiar dancing manages to make endless fun of this role. Miss Greenwood is a real comedienne of originality and talent. She dances with the spirit of travesty and her delivery of lines is characteristically droll.

Robert Higgins who takes the part of "Jim," the sad "gob," is a partner who is almost as funny as herself which is saying a great deal.

Gasoline.

Gasoline gives off a very explosive vapor, even at ordinary temperature. This vapor is heavier than air and may be present near the floor of a room in which the odor of gasoline is scarcely noticeable to a person standing.

Ancient Perfume.

It seems strange to us today to read of saffron as a perfume; one of the romances about it lies in the story by Hakluyt of a pilgrim smuggling, at the risk of his life, from the Levant, a head of saffron in a hollow made in his staff.

WHEN YOU LAY YOUR PAPER ASIDE

After you've read the news, have you gotten all the valuable information out of it? Not until you have read the advertisements.

Reading the advertisements should be just as much a part of your day as reading the news columns.

The advertisements in your favorite newspaper are a daily record of what your local merchants have laid in store to meet your needs and add to your comfort.

They tell you what the manufacturers of these goods, who are constantly striving to please the great American public, have done to add to your advantages and comforts. The news, while always interesting, may often concern you only in a general way.

The advertisements are almost certain to tell you something that may mean a great deal to your home life or your business and social welfare.
